## DETAILED ACTION

### *Election/Restrictions*

Claims 12-13, 21-22 and 34 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election of the species of Figure 3 was made without traverse in Paper No. 4.

### *Claim Objections*

Claim 16 is objected to because of the following informalities: the recitation of "control devices is fitted" in line 2 is grammatically incorrect. Appropriate correction is required.

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 15-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 15 recites the limitation "the supply air chamber" in line 4, "the room space" in lines 7-8, and "the induction ratio" and "the supply air duct" in line 10. There is insufficient antecedent basis for these limitations in the claim. Although, reference numerals within parentheses are not limitations, the recitations of "(L1 + (L2) + 6" in line 12 and "L1 +(L2)" require correction.

Claim 17 depends on cancelled claim 1.

Claim 18 depends on claim 17.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 15-18 as understood are rejected under 35 U.S.C. 102(b) as being anticipated by Chandler (Figures 2-3).

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
